Comments from Past Workshops:

“Your class was exceptional and I learned not only that the oils help us physically, they also have a way of speaking to our soul and touching the spirit within. I left your class with an inner peace I haven’t experience in quite some time. The Touch With Oils® routine is very nurturing not only to the recipient but to the giver as well. Thanks again for being such an inspiration. I consider you an excellent instructor with your extensive education and research on Aromatherapy.”

“Candace made a complex topic simple and easy to understand. She surely has a passion for Aromatherapy; I can see why she is known as The Oil Lady. The class exceeded my expectations. Candace I would like to have you interviewed for a future Holistica Magazine article.”

“Each aspect of the class was interesting and I actually feel better myself just from taking the class. You have simplified this science and I am inspired to do this work for others.”

“Candace, your passion for Aromatherapy, personal testimony, and teaching ability are great strengths. Listening to you is always a delight – I learn something new each time. Thank you for sharing your gift!”

“This class motivated me and the knowledge gained is most helpful. I found it very enjoyable. The hands on work with the oils was truly helpful for me. I loved the class.”

“This was an extremely educational and inspiring class.”
