## Touch With Oils® Face & Body Treatment

**Candace Newman MAT LMT 14 CEU's for AMTA - pending for NCBTMB**

Join us and learn the English Aromatherapy massage taught to Candace Newman by the late Madame Micheline Arcier, who developed this treatment with Marguerite Maury and Dr. Jean Valnet. Candace was Madame Arcier's 7<sup>th</sup> and last student from the USA. To honor this work and be sure it is not lost, she will teach the treatment as the pure original work. This may then be used as a stand alone treatment or incorporated into other therapeutic work. This gentle rhythmic massage, based on the synergistic powers of touch and smell, serves to balance the autonomic nervous system, promote lymphatic drainage, and give the body & mind a deep & quiet rest. Candace will share notes, pictures and stories from her journal and times with Madame Arcier and her daughter Marie-Christine Arcier. You do not need to have previous Aromatherapy training to take this course. Professional blends are provided. Trained Aromatherapists will learn a treatment for their blends.
